IMPORTANCE OF UP–TO–DATE CHARTS

The date of a chart is of vital importance to the navigator. When charted information becomes obsolete, further use of the chart for navigation is dangerous. Natural and artificial changes, many of them critical, are occurring constantly; therefore it is important that navigators use up-to-date charts.

New NOS products are not to be used until their availability is announced in the Notice to Mariners. All products should be promptly annotated with the Notice to Mariners number that authorizes their use. This will ensure that only valid products are used.

Nautical charts and publications are available for purchase from authorized Sales Agents or their sales outlets. Information on obtaining charting products and a listing of authorized agents may be found at http://www.nauticalcharts.noaa.gov.
