

UNITED STATES Coast Pilot®

2

Atlantic Coast: Cape Cod, MA to Sandy Hook, NJ

2017 (46th) Edition

This edition cancels the 45th Edition and includes all previously published corrections.

Weekly updates to this edition are available at:
nauticalcharts.noaa.gov/nsd/cpdownload.htm

They are also published in the National Geospatial-Intelligence Agency (NGA) U.S. Notice to Mariners.

U.S. Department of Commerce
Penny Pritzker, Secretary of Commerce

National Oceanic and Atmospheric Administration (NOAA)
Kathryn Sullivan, Ph.D., Under Secretary of Commerce for Oceans and Atmosphere,
and NOAA Administrator

National Ocean Service
Russell Callender, Ph.D., Assistant Administrator, National Ocean Service

Preface

The United States Coast Pilot is published by the National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), pursuant to the Act of 6 August 1947 (33 U.S.C. 883a and b), and the Act of 22 October 1968 (44 U.S.C. 1310).

The Coast Pilot supplements the navigational information shown on NOAA nautical charts. The Coast Pilot is continually updated and maintained from inspections conducted by NOAA survey vessels and field parties, corrections published in Notices to Mariners, information from other Federal agencies, State and local governments, maritime and pilots' associations, port authorities, and concerned mariners.

NOAA's Office of Coast Survey encourages public feedback regarding its suite of nautical charting products and services through the Nautical Inquiry/Discrepancy Reporting System. This system allows comments, inquiries and chart discrepancies to be submitted directly to NOAA's nautical charting program. Inquiries are typically acknowledged by email within one day, and ninety percent are answered or resolved within five days.

General comments or inquiries can be made at nauticalcharts.noaa.gov/inquiry.

Nautical chart or Coast Pilot discrepancies can be reported at nauticalcharts.noaa.gov/discrepancy.

Coast Survey also maintains a toll free phone line for public comments or inquiries.

Customers may contact the charting program by telephone on weekdays from 8:00 a.m. to 4:00 p.m. (Eastern Time) at 888-990-6622.

Update your Coast Pilot

Check for weekly critical updates for this edition at

nauticalcharts.noaa.gov/nsd/cpdownload.htm

(See **33 CFR 164.33 Charts and Publications**, chapter 2, for regulations.)

You may print the specifically affected paragraphs to revise this book, or download an updated .pdf of the entire volume.

A *Weekly Record of Updates* is provided for your convenience directly preceding the index.

This U.S. Coast Pilot edition is respectfully dedicated to our colleague and friend, retired Rear Admiral Gerd F. Glang.

Rear Adm. Glang led the Office of Coast Survey during a time of tremendous advancement. Accomplishments under his leadership include leading NOAA's transition from a paper-based nautical charting system to a full digital system, and overseeing the production of the U.S. Coast Pilot's up-to-date publications on a weekly schedule in multiple formats to the mariner. He increased the range and scope of charting data acquisition to include information gathered from satellites and volunteer vessels, and he established a vision and process to deliver integrated products for precision navigation.

We thank you, Rear Adm. Glang, for your leadership and commitment to the Office of Coast Survey, and all of your efforts promoting safe navigation. You will be missed both personally and professionally by your many friends and colleagues at NOAA.

-Thomas J. Loeper, Branch Chief, U.S. Nautical Publications Branch, NOAA
