## Chapter 6, Paragraph 192, read:

<sup>(192)</sup> **Grand Lagoon** extends about 5 miles NW from just within the dredged entrance to St. Andrew Bay. A dredged channel leads into the lagoon from St. Andrew Bay to a point about 0.4 mile E of State Highway 392 Bridge, thence branches to serve facilities of both the N and S shores; these branches are connected by a channel parallel to the highway bridge. In 2010, the controlling depth was 4.8 feet. The channel is marked by lights and daybeacons. A fixed highway bridge over the lagoon has a vertical clearance of 18 feet. Marinas near the highway bridge provide gasoline, diesel fuel, berths, electricity, water, ice, and marine supplies. A 30-ton mobile hoist can haul out craft for complete repairs and storage.
