## Chapter 4, Paragraph 145, read:

(145) The common entrance to Oceanside Harbor and Del Mar Boat Basin is between two jetties. The long west jetty is marked by a single light at the seaward end. The short east jetty has a north and south extension which are both marked by lights. A mariner radio activated sound signal at the light on the south extension is initiated by keying the microphone five times on VHF-FM channel 81A. Inside the common entrance is a lighted junction buoy separating the entrance channels to Oceanside Harbor and Del Mar Boat Basin. The entrance channel for Oceanside Harbor is marked by lighted buoys, lights and a daybeacon. A submerged jetty, just north of the entrance channel to Oceanside Harbor, is marked by a danger buoy at its outer end.
